COMPREHENSIVE NEEDS ASSESSMENT (TIA 12)

Holland Independent School District conducted comprehensive needs assessment based on TAPR data such as End of Course Exams/STAAR performance, attendance rates, dropout rates, and SAT/ACT data. In addition, for general education and for special programs, the data was disaggregated for all population groups, including male and female. Individual student's strengths and weaknesses were identified by disaggregated STARR/End of Course Data by grade level, subject area, and categories.

The needs assessment also consisted of identifying needs for all subject areas, grade levels, and each special program considering the six areas of decision making (planning, curriculum/instruction, staffing, staff development, school organization, budgeting) and through the Effective Schools Correlates (Instructional Leadership, Instructional Focus, High Expectations, School Climate, and Parental Involvement). The elementary school is a Title I, Part A School wide campus based on 47% of low income student. The middle school is a Title I , Part A School wide campus based on the feeder pattern.

Surveys were disseminated to all faculty, staff and parents, including business and community representatives serving on the District and Campus Improvement Committees. District and campus improvement plans from the 2020-2021 school year were reviewed and revised based on the achievement of specific goals and objectives. As a result, the 2021-2022 district and campus improvement plans reflect all of the aforementioned needs in order to improve student performance.

Goal #1: Campus Academic Goals

All student groups taking the STAAR reading, math, social studies, and science tests will meet or exceed the state standard of 90% passing and all non-tested grades will work on areas of weakness to help improve scores in future years. All students will be college and career ready upon graduation.

Refer to strategies for regular education students and special programs students.
