Bullying is defined by state law as engaging in written or verbal expression, expression through electronic means, or physical conduct that occurs on school property, at a school-sponsored or school-related activity, or in a vehicle operated by the district and that:

- Has the effect or will have the effect of physically harming a student, damaging a student's property, or placing a student in reasonable fear of harm to the student's person or of damage to the student's property; or
- Is sufficiently severe, persistent and pervasive enough that the action or threat creates an intimidating, threatening or abusive educational environment for a student

Conduct is considered bullying if it

(a) exploits an imbalance of power between the student perpetrator and the student victim through written or verbal expression or physical conduct; and

(b) interferes with a student's education or substantially disrupts the operation of a school

After submitting the report, the campus principal will investigate the incident to determine if it meets the definition of bullying and apply the appropriate consequences.
