

## Holland ISD Gifted and Talented Referrals

Holland ISD parents/guardians may refer a student to receive the services of the gifted and talented program. All students who are referred during the nomination window of January 10, 2024, through January 31, 2024, will be considered for assessment and evaluation by district personnel trained in the practice of gifted and talented education. The deadline to nominate a student for Gifted and Talented is January 31, 2024.

The referral, assessment, and identification process of gifted and talented students will occur once a year, during the spring semester for the upcoming school year. If you would like to nominate a student for the GT program, please complete the form that is available at your child's campus office. The form is also available on the Holland ISD website. Please return the form to your child's school office.
